Designed for the Well-lived Home

Uniquely crafted for those who are serious about cooking, Electrolux ICON™ professional series appliances conspire to make you the culinary master of all you create. Their bold look, expert design and exquisite details give you the confidence to display your gourmet artistry.

For more information on the complete line of Electrolux ICON, visit www.electrolux.com.

Because Design Matters

Shopping for period inspired hardware usually involved a trip to your favorite vintage shop. But now Atlas Homewares has stepped up to the plate with a new deco collection that would make the centuries most inspired designers proud. The Atlas Homewares Craftsman Corner beckons to the arts and craft movement both in replication and updated styles.

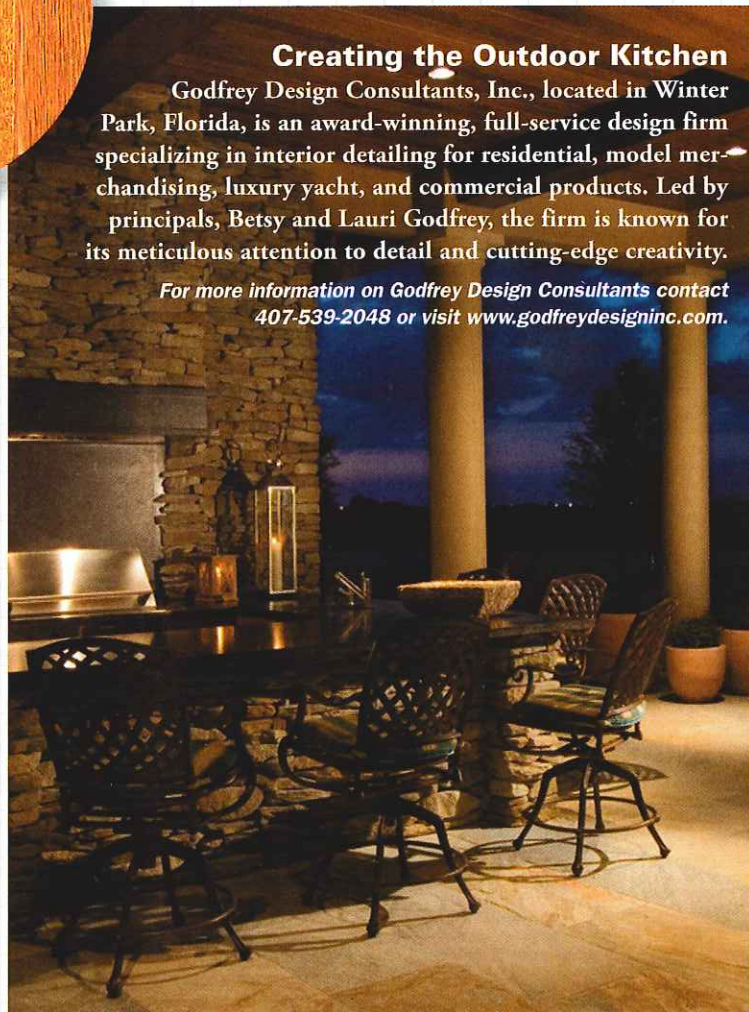

For more information on Atlas Homewares, please call 1-800-799-6755 or visit www.atlashomewares.com.

Creating the Outdoor Kitchen

Godfrey Design Consultants, Inc., located in Winter Park, Florida, is an award-winning, full-service design firm specializing in interior detailing for residential, model merchandising, luxury yacht, and commercial products. Led by principals, Betsy and Lauri Godfrey, the firm is known for its meticulous attention to detail and cutting-edge creativity.

For more information on Godfrey Design Consultants contact 407-539-2048 or visit www.godfreydesigninc.com.

Indulge Sophistication

It's an easy concept to grasp – a single 24, 48 or 72-inch model – yet making this paradigm a reality is a technological achievement that only PERLICK could master. It's the ultimate in design flexibility—and luxury options—for under counter and stand-alone options featuring the Variable Speed Compressor. Exclusive to PERLICK, the variable speed compressor evenly distributes convection cooling while never fluctuating the temperature inside the cabinet more than +/- 2 degrees.
